MAKE A PLAN

6 **A Fresh Take on the Old Rules** Updating some well-known truisms for saving and spending will help keep you on the right track.

14 **What Really Makes You Happy in Retirement** Having enough cash certainly helps—but recent research points to other areas retirees need to address to be happy.

18 **Use These Tools to Create Your Financial Plan** Do-it-yourselfers can take advantage of sophisticated and affordable software programs.

22 **How to Close the Bank of Mom and Dad** Few of us will say no to our kids if we can lend them a hand. But assisting in the right way is key for preserving your financial security.

26 **Planning When Spouses Have a Big Age Gap** Partners who have more than a few years' difference in their ages need to adjust their retirement calculations and strategies.

30 **Managing Retirement When You're on Your Own** Going it alone has some unique challenges—and some practical solutions.

40 **Get Ready for the Great Wealth Transfer** Older Americans will pass along an unprecedented amount of wealth over the next two decades. Here's how families can make the most of assets built over a lifetime.

INVEST WISELY

46 **Balance the Risk in Your Portfolio** You can make your investments less volatile with some well-considered adjustments.

52 **Boost Your Yield With Our Favorite Dividend Stocks** The Kiplinger Dividend 15's average payout handily beats the S&P 500's.
